Promo Card Chocolate Bar 10 g - it's our novelty and our pride. This is a product which guarantees twice as much advertising space. The logo, and the text or advertising message, are both on the package and on the label of the chocolates that are part of this product. The next step in customising the Promo Card to your preferences is to choose the taste of chocolate - mini tablets offer you the choice of: milk, white, dark or milk & white chocolate.

It is possible to doubly personalise this product: placing any logo, text, or advertising message directly on the chocolate and on the packaging.

The image features a minimalist composition on a white background. It includes several white, textured spherical candies that resemble small balls of yarn or marbles. Interspersed among these are small, round, silver-colored tins. Some tins are open, revealing they are filled with small, white, pill-shaped candies. One tin in the center is open, showing a smooth, white, powdery substance instead of pills. The arrangement is scattered and artistic, with soft shadows cast by the objects.
